

CITY OF BREA

# Important Blackstone Parking Information

January 2018

---

Construction has been completed and all the streets within the Blackstone neighborhood are soon being transferred from the County of Orange to the City of Brea. Beginning on February 5, 2018, all City parking regulations will be enforced to assure consistency for both public safety and sanitation purposes. Please become familiar with important requirements.

## Street Sweeping Day

- Blackstone is swept on Thursdays, between 10 a.m. and 12 p.m. as posted on signs within the tract. During this process, a parking violation citation will be issued to any vehicle blocking the sweeper's path.
- ALL VEHICLES – including those with an overnight permit - must be removed from the street as weekly sweeping occurs. Vehicles may be moved and immediately re-parked after the sweeper and enforcement vehicle have passed.
- If an exemption is needed to accommodate a temporary circumstance during that time period (ex: repair service, delivery or construction activity) the homeowner must call the police department 24 hours in advance at 714-990-7911 to request an exemption.

## Overnight Parking

- Parking on all Brea streets is restricted to no longer than 30 minutes between the hours of 2 and 6 a.m. (Municipal Code Section 10.24.030) Vehicles that are continuously parked on public streets during these hours may be cited for a parking violation.
- Overnight on-street parking is allowed by permit. Residents with qualifying\* situations can purchase a permit for a vehicle legally registered to that same Brea address. All permits expire on December 31 each year.
- There is a provision for a temporary permit in order to accommodate short-term overnight guests. You can download and fill out this permit form available on the City website.

*\*A review is conducted of available parking spaces in both the garage and on the driveway at a residence. Blackstone HOA requires that two vehicles be parked in the garage as part of their neighborhood regulations. In order to obtain a City of Brea overnight parking permit, these regulations must be satisfied, along with the other established criteria. No on-street permit consideration is given for vehicles registered at a non-Brea address.*

## Blackstone Special District

Some Blackstone neighborhoods include private streets with no on-street parking available. And, some of the homes on these streets are greater than 100' away from a street where on-street parking is allowed—which is normally a standard requirement in order to obtain an overnight parking permit. In Blackstone, this requirement will be waived due to the street design factors and a Special District is being established to provide for this consideration. Please direct questions to: [breaparkingpermits@cityofbrea.net](mailto:breaparkingpermits@cityofbrea.net) or call 714-671-4404.

Keeping streets clear of vehicles during sweeping facilitates efficient City sanitation services. Identification of overnight vehicles through permits can enhance overall public safety for your area.

Thanks much for your continuing cooperation!
